
R.I.G. Modules - Bathroom

Mikal Harrsen, 2018

The R.I.G. modules offer the perfect backdrop and enhance the use of materials. The modules frame the essential elements of the bathroom: tailor-made units and basin in wood or marble, mirrors, light bars and towel racks. Ideal for both wall and freestanding compositions. Thanks to its ever changing nature and flexible structure, R.I.G. can furnish both domestic and office spaces.

DESCRIPTION

Modular bathroom system characterised by pure lines and an ultra-flexible design to organise storage spaces with a geometric layout for both domestic or work spaces. The different modules harmoniously blend the materials and their industrial, yet precious aesthetic with functionality and rigour.

Each module is specifically designed for bathroom as both wall and island compositions, with a specific sink made in precious stones and dedicated containers.

Mirrors are designed with the same production method of the powder-coated solid steel frame and complement the mirror, the light bar and the towel rod.

PRODUCTS

Gris du Marais

Gris du Marais is a classic marble, characterised by its elegant dappled grey veining and warm, almost brown, undertones. Exclusive to Salvatori, its low absorption rate makes it an ideal choice for kitchens and bathrooms.

Pietra d’Avola

A rich chocolatey limestone, Pietra d’Avola is a dark, intense and elegant stone which can vary in shade from greyish-brown to almost black. A hardwearing stone, it is ideal for interior usage and high foot-traffic areas.
