
R.I.G. Modules - Kitchen

Mikal Harrsen, 2018

The RIG modular system now moves into the kitchen. The thin black profile hosts several specific elements, accessorising itself according to the different needs. Units and drawers, available in standard or shaped shelves to hold glasses and ladles, open compartments and bottle racks to space as needed. While clearly communicating its highly functional nature, R.I.G is able to act as a neutral, chameleonic presence.

DESCRIPTION

The R.I.G. modular system originally designed for the home now extends its use in the kitchen thanks to its versatility and specific accessories. The module has been specially designed for use in areas adjacent to the kitchen area. It is enhanced with specific accessories such as units and drawers with dividers, cutlery holders and utensils, ladle racks and traditional shelves, glasses holder for goblets and open compartments, bottles to store bottles (both in vertical and horizontal position).

Modules: H.1464/2172/2880 L.1100/550 D.384

“The R.I.G. Modules Kitchen Storage extension is inspired by the traditional marketplace and its attentive arrangement of goods and seasonal produce. The idea of an open shelving system in the kitchen is all about celebrating the beauty of food, the tools it requires and the pleasure of the hours lived in this dynamic and social setting.” M. Harrsen

SALVATORI

Salvatori is an award-winning third-generation Italian design company specialising in natural stone. Founded in 1946, it is renowned for its innovative and elegant products created in its Tuscan headquarters just a few kilometres south of the famed Carrara marble quarries. From stunning textures for walls and floors, to bathroom items and products for the home such as tables, lighting, mirrors and decorative pieces, the Salvatori brand has become the global benchmark in the “design meets natural stone” field.

Flagship showrooms: Milan, London, Zurich

Partnership for exclusive use of Lithoverde® and textures for Boffi, De Padova and MA/U Studio products.

PRODUCTS

Gris du Marais

Gris du Marais is a classic marble, characterised by its elegant dappled grey veining and warm, almost brown, undertones. Exclusive to Salvatori, its low absorption rate makes it an ideal choice for kitchens and bathrooms.

Pietra d’Avola

A rich chocolatey limestone, Pietra d’Avola is a dark, intense and elegant stone which can vary in shade from greyish-brown to almost black. A hardwearing stone, it is ideal for interior usage and high foot-traffic areas.
