
R.I.G. Modules - Wardrobe

Mikal Harrsen, 2018

Smart and simple. These are the adjectives that the R.I.G. system deserves. What truly completes the wardrobe is the flexibility to create personal and numerous and highly personal configurations. The essentiality of the structure reduces the overall dimensions to a minimum and makes it possible to better organise the elements that can be customised based on individual needs. It enhances the wardrobe system or furnishes the sleeping area with a minimal and balanced solution.

DESCRIPTION

The R.I.G. modular system originally designed for the home now extends its use as wardrobe thanks to its versatility and specific accessories. The module has been specially designed for the sleeping areas and allows different compositions, perfect in every detail. It is enriched with specific accessories for shirts, trousers and shoes, together with hangers and traditional shelves with large-capacity drawer units and background mirrors that create vanity unit for the bathroom.

Modules: H.402/756/1464/2172/2880 L.1100/550 P.384/500/600 mm.

“The phenomenon of dressing is spectacular and intimate. We enter the wardrobe with the ambition of making a self-assured, elegant and civilized exit. By designing the R.I.G. Modules wardrobe variations, I aimed at creating an inspiring scene for this act.” M. Harrsen

SALVATORI

Salvatori is an award-winning third-generation Italian design company specialising in natural stone. Founded in 1946, it is renowned for its innovative and elegant products created in its Tuscan headquarters just a few kilometres south of the famed Carrara marble quarries. From stunning textures for walls and floors, to bathroom items and products for the home such as tables, lighting, mirrors and decorative pieces, the Salvatori brand has become the global benchmark in the “design meets natural stone” field.

Flagship showrooms: Milan, London, Zurich

salvatori.it

Partnership for exclusive use of Lithoverde® and textures for Boffi, De Padova and MA/U Studio products.

PRODUCTS

Gris du Marais

Gris du Marais is a classic marble, characterised by its elegant dappled grey veining and warm, almost brown, undertones. Exclusive to Salvatori, its low absorption rate makes it an ideal choice for kitchens and bathrooms.

Pietra d’Avola

A rich chocolatey limestone, Pietra d’Avola is a dark, intense and elegant stone which can vary in shade from greyish-brown to almost black. A hardwearing stone, it is ideal for interior usage and high foot-traffic areas.
